Summary

Australian Permanent Resident subclass 189.

Specialties: VueJS, NodeJS, Php, GSuite, Google Cloud, Firebase, SCRUM

Solutions developer with substantial software development experience specializing in web and mobile business applications. Handled projects concentrate mainly on work-flows (HR Applications, Document Tracking Systems, etc) and computation-extensive algorithms(Accounting, Financial and Content Management). Particularly interested in full-stack web development using VueJS, NodeJS, Firebase and Google Cloud. Always interested in working with teams, as well as exploring new development methodologies.
